FOAM CLEANER FOR ROOFS & VERTICAL APPLICATIONS

FOR ALL APPLICATIONS INCLUDING GENERAL USE AND PRESSURE WASHING

Water Based • Biodegradable • Exceeds Environmental Standards • Bleach and Chlorine Stable • No Noxious or Volatile Fumes • Non-Flammable

**BioPeak Foam Cleaner** is a SAFE All-purpose solution that is water based, biodegradable and environmentally responsible with a zero rating in the three NFPA categories of Health, flammability and reactivity when diluted.

**BioPeak** creates a thick foam that is specially formulated to cling to roofs and vertical surfaces to increase cleaning effectiveness.

**BioPeak** is an economical concentrate that is chlorine stable and biodegradable.

**BioPeak** adds a copious foaming action to your roof cleaning mix that will keep the chemical where you need it, decreasing run off even on the steepest roof surfaces. This allows the necessary penetration and saturation time for the active cleaning ingredients to work on tough stains and dirt like pesky roof algae and mildew.

**BioPeak** will not degrade the strength of your roof cleaning solution, even after days, so larger batches can be mixed ahead of time without affecting the effectiveness of your mix. Plus

**BioPeak** is easily pourable and readily blends in to your solution without leaving a residue in your tank.

- Bleach stable surfactant
- Contains added wetting agents that reduce drag while wiping surfaces clean
- Deeper penetration accelerates cleaning

## SPECIFICATIONS:

### ▶ READILY BIODEGRADABLE SURFACTANT

↳ Yes

### ▶ PHYSICAL FORM

↳ Liquid

### ▶ FLASH POINT (TCC)

↳ Non-flammable

### ▶ ODOR

↳ Mild

### ▶ pH

↳ 9.0 +/- .5

### ▶ COLOR

↳ Water White

### ▶ SHELF LIFE

↳ 1 year minimum

### ▶ SPECIFIC GRAVITY

↳ > 1

### ▶ DOT SHIPPING LABEL

↳ Not required

### ▶ VOC

↳ None

### ▶ CALIFORNIA PROPOSITION 65

↳ N/A

## APPLICATION

### USES:

Can be used alone for a fantastic foaming cleaner or add to chlorine bleach to clean faster and more complete than bleach alone. Cleans oil grease and dirt with an easy to follow foam trail saving time and money and prevents detergent waste.

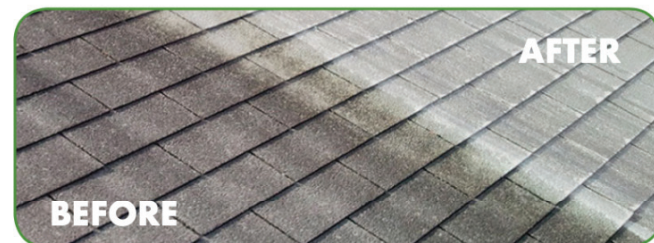

### DILUTION/INSTRUCTIONS:

Dilution rate is 1 quart per 50 gallons of roof cleaning mix. Apply one area at a time through suitable applicators such as a pressure washer, aerator or foaming nozzle. Adjust dilution percent higher or lower depending on the desired foam and soil.

### MORE INFO:

## PACKAGING

- 6 x 64 oz (1/2 gallon bottles) per case with insert tube
- 4x1 single gallon re-fill jugs
- 55 gallon drums

FOR INDUSTRIAL & COMMERCIAL USE ONLY. REFER TO SDS FOR FURTHER SAFETY INFORMATION.
